THE LATE BRUTAL ATTACK UPON A GERMAN,—The German emigrant who was brutaily beaten a few days ago by Luke Toole, an Irish emigrant runner, is lying in one of the sick wards of the City Prison, under the gare of Dr. Covil, a raving maniac. The beating he received appears to have destroyed his reason, and Sears are entertained that it will never be restored. Toole is to be tried to day in the Special Sessions, but great efforts are being made to get him off scot free. He is a rotorious character, and but a few months ago broke the arm of a weak and innocent man, for which he received no adequate punishment.

Row in a House of Ill-Fame.-Between 12 and I o'clock yesterday morning, a disturbance took place at the disreputable house of Mrs. Carter, Leonard street, during which a rowdy drew a knife and stabbed two men in the face, but not dangerously. A policeman soon appeared, but as the wounded men declined making a complaint against the person using the knife he was not arrested.

Last evening a fire occurred in the dwelling house o A. Wood, No. 117 Perry street. The flames were soon extinguished. Damage about \$50. The fire is said to have been occasioned by the children playing with friction matches.

THE HEAT AND THE CHANGE.-The temperature on Friday, 23d, at 2 and 3 p. m., rose to \$4°; at midnight was at 64°, Red lightning South in the evening. Saturday, 24th, temperature at 4 s. m. 600-the highest at that hour this year; at 3 m., 90° and 91°, by two thermometers; and this morning at o'clock, 45°-being a change of 45° since Saturlay. Light ning here; severe thunder and lightning storm at Boston; and severe storm south of Petersburg, Va., Saturday evening. A severe storm seath of Petersburg, Va., Saturday evening. A similar state of atmosphere was experienced in 1851. On the 16th of May of that year temperature 34°; 17th, 90°; and 18th, 25°; and ou 20th, down to 42°—also a change of 48°. My memorized for those days record very severe thunder and lightning storms, (in many places throwing down ice and hall, extending storms, (in many places throwing down ice and hall, extending storms, in memoric circuit—commencing at London, Upper Cameda, and extending to Quebec; theme through Vermont, New-Jersey, Pennsylvania, Maryland, Virginia, Kentucky, Ohio, and Michigan. On the 17th and 18th, Lake Michigan was obbling and flowing every fifteen or twenty minujes, and on 20th and sey, Pennsylvania, Maryland, Virginia, Kentucky, Ohio, and Michigan. On the 17th and 18th, Lake Michigan was obbins and flowing every fifteen or twenty minutes, and on 20th and 22d earthquakes closed the fearful exhibition. Many person were killed, several wounded buildings burned, and buildings and vessels struck by lightning. It will be seen, or reference to map, that the Provinces and States, in the order I have Damed them, form a circle—the lightning returning to itself.

Lewis. The lad was terribly injured, and Policeman Menaghan of the Third Ward, who was noon the stage at the time, conveyed him to the New-York Hospital. The driver was not arrested, as the occurrence was accidental, the stage being driven at a slow rate when the casualty happened.

PATAL ACCIDENT.—John Earle, a painter, was in-mently killed yesterday in consequence of a fall received at No. 113 Leroy street, where a ladder upon which he was standing, while engaged in painting the cornice, broke. Coroner Perry held an inquest upon the body. Verdict "Accidental death."

CHARGE OF FORGERY .- Christopher Schaffer, a CHARGE OF FORGERY.—Christopher Schaffer, a German surveyor, was arrested on Sunday charged with having forged the name of T. H. Bown, a resident of New-Jersey, to a rote of hand for \$200, thereby defrauding Mr. Signand Steep litz, doing business at No. 2 Cliff street, out of that sum. It ap-pears that en the lat of February last the accused purchased of Mr. S. a theodelite, and gave his note indored by Mr. Bown, as payment therefor. When the note matured it was dishon-ered and Mr. B. was called upon to cash it. He pronounced the signature a forgery, and also stated that Schaffer had sold him the theodelite for \$100. The accused was committed by Jus-tice Brennan for examination.

ARREST OF GAMBLERS .- Capt. Letts of the Seventh ARREST OF TAMBLERS, —Capt. Lettes or the Ward Police, with a section of his men, made a descert, late on Sunday night, upon the seaman's boarding-house, No. 150 Cherry street, and arrested John Francis, the keeper of the place, and his wife, besides thirty eight Spanish solors, some of whom they found gambling, and others in hed and saleep. The prisoners were brought before pastice Wood yesterday morning, when it appeared that the police were unable to tell which were cambring and which were saleep, and consequently the Magistrate discharged all except Francis and his wife.

The transactions at the Stock Board to-day were very light, especially at the Second Board, where the sales were smaller than they have been for a long time Prices in the morning were heavy but at the Second Board there was more firmness. There are so many conflicting elements working upon the market that the shrewdest operators appear to be in doubt how to act. While our financial affairs are shaping themselves favorably for a rise in the leading stocks, political matters counteract this upward tendency, the market becomes stampant. The effect of this condition of things is to arrest orders from outsiders and to prevent parties being made up in certain stocks, at the same time that the bears have no nerve to sell freely for a fall. The business of the Clearing House was \$28,042,000.

We hear of about \$350,000 in gold engaged for the Wednesday steamer, not including the amount to be shipped for account of Mr. Belmont. The ship may take \$800,000 or \$900,000. The shipment by the corresponding steamer of last year was \$1,687,000. This decreased export of Specie as compared with last year, notwithstanding our largely increased imports, s due to the large exports of Cotton and other produce. The official statement of Imports for the three-quarters of the fiscal year, ending March 31, (a small ortion estimated,) were \$215,180,628—while the Ex-orts for the same period, estimating the second quarer, were \$225,630,600-showing an excess of Exports over Imports of \$10,450,000; and of this the Specie

Exports were \$10,000,000 less than for the previous fiscal year to the same period.

The Bank Statement of the week is unexpectedly favorably showing a continued reduction of loans, while the specie reserve has largely increased. The specie line is now larger than it has been since March 29, when the loans were two and a half millions higher than new. This increase of gold is partly the result of receipts from the interior and partly from the California receipts of the previous week, which did not then arrive in time to affect the average materially. The receipts from the interior must have been larger than was anticipated. Another California arrival is near at hand, and the Sub Treasury within a month must disgorge a large amount under the Deficiency and Texas Debt bills, while the foreign drain appears to be falling off. The decrease in loans is well divided among the banks, no one in particular having contracted an important amount. The deposits, as is usual under a contraction of loans, show a decrease, but the drawing down of country balances has entirely cessed. The nominal decrease of deposits is \$4,630,000, but the actual decrease, deducting the difference of clearings, is only about \$100,000. The comparison

with the previous week is

to-day, in consequence of the calling in of loans by me barking houses, but the supply was sufficient for the demand, at 7 F cent. The Banks, it is supposed, are now rather expanding again than contracting, the expansion being in call loans mostly. The receipts of May are very large at most of the Banks, while the offerings have been quite moderate. Much of the derease in the aggregate loans of the Banks has been from the maturing of paper the promises of which did not need re-discounts. The payments from the interior have been quite good, and jobbers have not needed much accommodation.

In the Flour market the low grades are heavy with free arrivals, but the better grades are firm. State brands are \$5 87] @ \$6 18]; Extras \$7 50 up to \$10, the latter for St. Louis. There is a fair business doing in Southern Flour, at previous rates. Shippers are in market for prime Wheat, for which they are paying 2c. to 3c. P bushel advance. Sales of 9,600 bush. white Southern at \$1 83 @ \$1 85, 22,500 bush. Chicago Spring at \$1 40 2 \$1 50, and 12,000 do. Wisconsin Spring at \$1 50 @ \$1 55. Corn is in good demand and firm at 59 @ 62 c. Although the demand for Pork is moderate, the small supply pressing on the market has advanced the price of Mess \$1 8 barrel. Sales at \$18 75 2 \$19, and Prime at \$15 2 \$15 12]. Beef is dull. Cut Meats are firm and active. Lard remains without change. Weel is quiet at a decline of 2c, to 5c. on the highest point. In Groceries there is no change to note. Cotton remains quiet in the absence of foreign advices.

"The floating debt of the Company, on the 1st May, was \$60,005,47, exclusive of \$66,231,10 due the late commercial agents, of the Company, against which they hold insurance claims to the extent of over \$100,600. The debt of \$79,003,47 is made up, in a great measure, of an amount of \$94,457, due for insurance 31st December next, and an amount of \$24,339,06 to the credit of our old stockholders, and retained until claims in suit against them shall be settled. Of the bonded debt of \$29,4000, maturing its September next, the sum of \$150,000 was anticipated, and paid on the 19th April, under a resolution of the Board of Directors.

19th April, under a resolution of the Board of Directors.

"We have, at this date, surplus cash of \$250,000 in bank and the New-York Life and Trust Company, and I have been empowered by the Directors to pay at once the balance of the bonds (\$144,000).

"On the 1st January, 1856, the balance due the agents was paid, and the commercial agency was discontinued.

"Negotiations have been continued with the Nicaragua Company for fair rates of passage and freight; and various arrangements have been made which have resulted beneficially to both routes, without being burdensome to the public."

The Company, in consequence of the large premium, The Company, in consequence of the large premium

guineas per cent, charged by the London underwriters on steamers, have decided not to keep in surances on their steamers between Panama and San Francisce. The steamers on the Panama route will be insured against fire if it can be done at a reasonable rate. This saving in insurance will be about \$150,000 per annum. We stated in our notice of the annual meeting that a Committee was appointed to address a letter to Mr. Wm. H. Aspinwall expressive of the appreciation by the Company of his services.

We annex the letter of the Committee:

New York, May 21, 1856.

To Wm. H. Aspinwall. Rsq.—Sir: At a meeting of the stockholders of the Pacific Mail Stemachip Company, we were this day appointed a Committee to impart to you some expression of the unanimous feeling of respect and admiration excited throughout the assembly by your letter of the 7th instant, now first laid before us, waiving for a time any acceptance of the very large emoluments that are your right, under an assignment of the mail contract, and the terms of subscription to the capital stock of the Company. This Corporation, sir, owes its existence to your enterprise, perseverance, and energetic appliance to its wrifere of part of the resources and wealth that have so largely and honorably rewarded your long and arilinous career; and while a city is rising into eminence to perpetuate your name, you have, by your disinterestedness and liberality established in the hearts of your associates a still mobiler memorial two properties.

tablished in the hearts of your associates a still mobier memorial of moral greatness and worth.

We return to you, dear sir, on behalf of the whole body of tockholders, our best and most carnest wishes for your health still happiness, and rest.

Your faithful and attached servants.

debt will mature, which will amount to \$72,000.

The Doston Journal says.

Notwibstanding the less of about \$200,000 in the stock of coin held by our banks, and a steady demand for New-York funds, our money market has hardly varied a shade in its ground characteristics during the last week. On call there was a very little more active? for a few days, but this soon subsided, and at the close money was offered as freely as at any time since January 1. The general feeling now is that no serious disturbance is they to exert a money matters during the Summer unless cannot by war pastes or some event unnatural and extraordinary in its character.
